

Dear Sir,

It really gives me a very proud feeling that I was part of Indian Navy for last 15 years. After being released from the service the only thought which was in my mind, whether all my dues will be paid on time or my pension will be started on time?

I would like to convey all my praise to "Team Navpen" which took all pain to settle down dues, timely payment of funds.

Though my PPO was not ready and was not handed over to me at release centre but within a time span of 15-20 days I received it. The most shocking thing was the receiving of pension on the last day of August.

Such robust actions are only expected from the people who are highly motivated, ready to serve and having high standard of professionalism.

Such support still gives the cause to feel proud on being "Naval Veteran". All my best wishes to "Team Navpen" for their unrelenting efforts to make veterans' life hassle free.

Thank you "Team Navpen"
